**RE: National Register of Historic Places Nomination for
CA-LAN-001**

Dear Board of Supervisors:

Pursuant to Federal Regulations 36 CFR Part 60.6(c) I am notifying you that the State Historical Resources Commission (SHRC) at its next meeting intends to consider and take action on the nomination of the above-named property to the National Register of Historic Places (National Register). Details on that meeting are on the enclosed notice. The National Register is the federal government's official list of historic buildings and other cultural resources worthy of preservation. Listing in the National Register provides recognition and assists in preserving California's cultural heritage. If the item is removed from the scheduled agenda, you will be notified by mail.

Local government comments regarding the National Register eligibility of this property are welcomed. Letters should be sent to California State Parks, Attn: Office of Historic Preservation, Julianne Polanco, State Historic Preservation Officer, 1725 23rd Street, Suite 100, Sacramento, California 95816. So that the SHRC will have adequate time to consider them, it is requested, but not required, that written comments be received by the Office of Historic Preservation fifteen (15) days before the SHRC meeting. Interested parties are encouraged to attend the SHRC meeting and present oral testimony.

As of January 1, 1993, all National Register properties are automatically included in the California Register of Historical Resources (California Register) and afforded consideration in accordance with state and local environmental review procedures.

The federal requirements covering the National Register program are to be found in the National Preservation Act of 1966, as amended, and in Federal Regulations 36 CFR Part 60. State law regarding the California Register is in the Public Resources Code, Section 5024. Should you have questions regarding this nomination, or would like a copy of the nomination, please contact the Registration Unit at (916) 445-7009.

Sincerely,

Julianne Polanco
State Historic Preservation Officer

PLACE: Historic City Hall
Historic Hearing Room
915 I Street, 2nd Floor
Sacramento, California 95814

This room is accessible to people with disabilities. Questions regarding the meeting should be directed to the Registration Unit (916) 445-7008.

DRAFT

CALIFORNIA STATE PARKS OFFICE OF HISTORIC PRESERVATION

CA-LAN-001

**THIS NATIONAL REGISTER OF HISTORIC PLACES
NOMINATION CONTAINS RESTRICTED INFORMATION**

Archaeological and traditional property locations are considered confidential and public access to such information is restricted by law (Section 304 of the National Historic Preservation Act; Section 9(a) of the Archaeological Resources Protection Act; Executive Order 13007; Section 6254.10 of the California State Government Code). The following summary of the description and significance of the above-named resource is available for public access.

CA-LAN-1 is a prehistoric archaeological village site that contains archaeological features, artifacts numbering in the thousands, and human remains. Features, including hearths, millingstone concentrations, and burial cairns, are large, geospatial areas that indicate intentional human occupational activities and often contain artifacts.

CA-LAN-1 retains sufficient integrity of location, design, setting, materials, workmanship, feeling, and association to convey its significance under Criteria A and D. Individual aspects are discussed in detail in the Narrative Statement of Significance with regard to how the integrity of the property affects its significance and potential to yield important information.

CA-LAN-1 is eligible for the National Register of Historic Places at the state level of significance under Criterion A in the area of Education for the scientific contributions made in expanding the knowledge of California archaeology and contributions to field methodology during the middle of the twentieth century. The period of significance, 1946 to 1961, is when CA-LAN-1 was actively investigated. This time frame represents when the site was first discovered, probed, excavated, data compiled and analyzed, published in the archaeological literature and recognized as a type site that defined a distinctive archaeological pattern of California prehistory.

CA-LAN-1 is also eligible at the state level of significance under Criterion D for the information about California prehistory the archaeological site can continue to yield, most notably on the Milling Stone Horizon and its unique role in California prehistory. The period of significance under Criterion D is the Mid-Holocene epoch of California prehistory when CA-LAN-1 was occupied from circa 7000 to 5000 years before present. This time period is when many of the most important archaeological patterns in California emerged or developed into the recognizable ethnographic/historic societies encountered by the first European colonists.
